ACTIVITY REPORT FOR CHRISTMAS CELEBRATION 2020

**SUBMITTED TO: THE KAEMMLER FAMILY THROUGH
FRIENDS OF MALAWI WAISEN (FROM) –
GERMANY**

**COMPILED BY: AMOS CHIKAONDA
HFM DIRECTOR- MALAWI**

INTRODUCTION

Every year Hope For Misanjo HFM has been celebrating Christmas festivals with support from Mr and Mrs Kaemmler through FROMO.

Some of activities happened in celebration are dancing, eating special food, snacks and drinks, distribution of clothes and wishing each other well as they go for holiday

The pictures below shows some of the activities happened, the items & distribution activities carried out and how successful they were conducted. The celebration exercises were done in all HFM centres namely Ekhamunu, Wasi and Misanjo.

Figure 1: CHILDREN PLAYING OUTSIDE ONE OF OUR CENTRES

Figure 2: CHILDREN ENJOYING THEIR CHRISTMAS LUNCH

The activities had the following specific objectives:

- Providing food, snacks and drinks.
- Distribution of clothes to the kindergarten children.
- Dancing

: BUT MOST OF ALL MAKING SURE THAT THE CHILDREN ARE REMINDED THAT THERE ARE GUARDIAN ANGELS IN HUMAN FORM THINKING ABOUT THEM DURING THE FESTIVE SEASON.

Figure 6: SELECTION OF CLOTHES FOR THE CHILDREN

Activity Impact

Kindergarten children have benefited from the clothes provided and will help them to look smart and clean since some of them used to put on shabby clothes.

Kindergarten children were saved with nice meals since some of them have never tasted such wonderful meal in their life.

More parents and guardians are asking HFM especially Mr and Mrs Kaemmler to continue conducting such celebration in the future because they bring joy to the children.

The pressure is also on an increase to our side as more children who are not enrolled with HFM to join us on the celebration day.

Challenges

- No covid 19 measures were followed due to a large turn up of kindergarten children and other children around plus parents and guardians even though they were taught on ways of how to protect themselves from the virus, there is still need of redistributing more sanitary items and reusable masks.
- Limited space to accommodate children in the rooms since it was heavily raining on that day of celebration.
- Lack of kitchen utensils to use on Christmas celebration since food were supposed to be prepared in large dishes.
- Increased demand for activity extension by other local chiefs where there is no centers.

Recommendation

HFM and all the whole community are very thankful to the Kaemmler family for unwavering support towards our Christmas celebrations. Without you it would have been very difficult to entertain the orphans and the vulnerable in all our three centres under Hope for Misanjo. This year celebration was very jubilant filled with love, warmth and happy faces.

. On behalf of Hope for Misanjo, I would like to convey a message of thanks to you for the unwavering support towards our Christmas celebrations. Without you it would have been very difficult to entertain the orphans and vulnerable in our three centres under Hope for Misanjo. Indeed, it was a very jubilant occasion filled with lots of love and warmth.

Conclusion

Overall, the activity was successfully implemented. HFM is urging our donor FROMO especially the Kaemmler family to continue supporting us and

considering the fact that we live in one of the poorest countries in the world and most of children its their first time to enjoy the festive.
